

GPS Unik 2

You are already equipped? ***Keep your equipment's' performance.***

Although the technology is a key, there are, nevertheless, good reflexes to be adopted for an optimal functioning:

- ***Check the mounting and the connection*** of your security system.
- Check that cables are neither ***pinched, nor damaged, nor corroded.***

Bike/Quad

- ✓ You will be equipped with a GPS Unik 2; it will be given during the administrative checks and scrutineering. The GPS rental is included in the entry fees.
- ✓ A 1.200€ deposit is needed by unit, you will find the deposit terms of payment in the order form attached. It is important to **send us back the deposit before April 1st, 2018; after this date, deposit will be charged.**
- ✓ The vehicles must be **already equipped** with the installation kits when they arrive at scrutineering (please read carefully this information note to check the material needed).
If you need some installation accessories, **it is important to place your order before April 1st, 2018.**

Note: Only ERTF equipment can be connected with the GPS. The connection of other equipment is forbidden.

Speedocap V3

DRIVING SAFETY

Speedocap V3, the GPS Unik 2 repeater:

FUNCTIONS:

- **Display of the compass or of the Waypoint name and number**
- Odometer, COG (Cap Over Ground) and Speed repeater
- Bright Repetition (in parallel of the GPS) of the speed alarm
- Possibility to navigate between the various screens from the remote control of the GPS

Size and weight:

- Dimensions in mm: 111,5 x 75,4 x 31
- Weight: 200g

☞ **More functions:** The **V3 Eva** version of Speedocap V3, equipped with a GPS module, works **off-line** (when you are not connected to GPS Unik 2).

Speedocap V3 *Evo*

WORKS NOW EVEN WITHOUT GPS UNIK 2

Not connected to GPS Unik 2:

With its GPS chip, Speedocap V3 *Evo* gives you tripmaster functions **and the Head**, without the installation of a sensor.

It displays the main functions:

- Speed
- Heading
- Odometer

And also has two additional screens:

- Hour
- Stopwatch

The adapters delivered with the Speedocap are needed only for off-line use. Important: keep them carefully.

Remote control use hardly recommended.

Connected to GPS Unik 2:

The Speedocap V3 *Evo* does **EXACTLY** the same functions as Speedocap V3 (see picture below) and the GPS chip is inactive.

Size, weight and fixations same as Speedocap V3.
